Simple Explainer

We provide this ‘simple explainer’ for anyone reading or interpreting our certificates of conformity to assist with understanding. There is further information on our website www.accscheme.com or by calling our certification team on **0345 257 0018**.

Under s.123 of the Data Protection Act 2018, the UK Information Commissioner has published a Code of Practice for the Age Appropriate Design of Information Society Services. This is sometimes known as the Children’s Code. It is rooted in the United Nations Convention on the Rights of the Child (UNCRC) that recognises the special safeguards children need in all aspects of their life, including General Comment 25 on the Digital Rights for Children. Data protection law in the UK reflects this and provides its own additional safeguards for children.

These technical requirements only cover data processing in the context of the application of the Children’s Code to the data processing of information society services to demonstrate conformity with the Code. They do not cover the broader data processing activities of Scheme Clients.

The Scheme is operated through our UKAS accredited conformity assessment body (Age Check Certification Services Ltd) and the certification criteria contained within this document have been approved by the Information Commissioner’s Office in accordance with the Commissioner’s tasks and powers under Articles 57(1)(n) and 58(3)(f) pursuant to Article 42(5) of the UK GDPR.
